With COVID still being a major concern, we are still doing our part to help.

We are:

- cleaning our workstations between every patient
- having barriers in place where necessary
- disinfecting the glasses after they have been touched
- checking temperatures and ensuring everyone is wearing a mask

Currently, we are also cutting back on the number of people (patients, staff and doctors) in our office for the next few weeks/months. Staff and Doctors will be in the office, but in limited numbers, while other staff will be working from home. Please be patient with response times.

What YOU can do to help:

1) Curbside pick up for glasses/contact lenses/dry eye products is available. Otherwise, you can **call or email before hand to make an appointment** so we can ensure we are reducing the amount of people in the clinic.

2) Eye Appointments – please call or email to book your appointment as we must limit the number of patients in the clinic.

3) Eye Emergencies? – please call so we can address your needs and direct you to the correct provider for care.

4) Please continue to be considerate, kind and stay safe so we can all play our part in flattening the curve.
